Going Concern

The Company has incurred substantial operating losses since its inception. As reflected in the consolidated financial statements, the Company had an accumulated deficit of approximately \$173.2 million at September 30, 2023, a net loss of approximately \$28.2 million, and approximately \$4.1 million of net cash used in operating activities for the nine months ended September 30, 2023. The accompanying condensed consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might result from the outcome of this uncertainty. The Company anticipates incurring additional losses until such time, if ever, that it can obtain marketing approval to sell, and then generate significant sales, of its technology that is currently in development. As such it is likely that additional financing will be needed by the Company to fund its operations and to develop and commercialize its technology. These factors raise substantial doubt about the Company's ability to continue as a going concern for the next twelve months from issuance of this Quarterly Report on Form 10-Q. The Company will seek to obtain additional capital through the sale of debt or equity financings or other arrangements to fund operations; however, there can be no assurance that the Company will be able to raise needed capital under acceptable terms, if at all. The sale of additional equity may dilute existing stockholders and newly issued shares may contain senior rights and preferences compared to currently outstanding shares of common stock. Issued debt securities may contain covenants and limit the Company's ability to pay dividends or make other distributions to stockholders.

Basis of Presentation

These interim condensed consolidated financial statements are unaudited and were prepared by the Company in accordance with generally accepted accounting principles in the United States of America ("GAAP") and with the Securities and Exchange Commission's ("SEC") instructions to Form 10-Q and Article 10 of Regulation S-X.

The preparation of interim condensed consolidated financial statements requires management to make assumptions and estimates that impact the amounts reported. These interim condensed consolidated financial statements, reflect all adjustments, consisting of normal recurring accruals, necessary for a fair presentation of the Company's results of operations, financial position and cash flows for the interim periods ended September 30, 2023 and 2022; however, certain information and footnote disclosures normally included in our audited annual financial statements, as included in the Company's interim condensed consolidated financial statements on Form 10-Q, have been condensed or omitted pursuant to such SEC rules and regulations and accounting principles applicable for interim periods. It is important to note that the Company's results of operations and cash flows for interim periods are not necessarily indicative of the results of operations and cash flows to be expected for a full fiscal year or any other interim period. The information included in this Quarterly Report on Form 10-Q should be read in connection with the financial statements and accompanying notes included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2022.

Principles of Consolidation

The condensed consolidated financial statements include the accounts of the Company and its wholly owned subsidiary, ToughBuilt Industries UK Limited. All intercompany balances and transaction are eliminated. Any foreign currency translation and transactions are de minimis to the condensed consolidated financial statements.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. The Company regularly evaluates estimates and assumptions related to the valuation and recognition of revenue, accounts and factored receivables, valuation of long-lived assets, accrued liabilities, notes payable, going concern assumptions, and deferred income tax asset valuation allowances. The Company bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the Company may differ materially and adversely from the Company's estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected.

Cash

The Company considers all highly liquid instruments with maturity of three months or less at the time of issuance to be cash equivalents. The Company did not have any cash equivalents at September 30, 2023 and December 31, 2022.

Accounts Receivable

Accounts receivable represent income earned from the sale of tools and accessories for which the Company has not yet received payment. Accounts receivable are recorded at the invoiced amount and adjusted for amounts management expects to collect from balances outstanding at period-end. The Company estimates the allowance for credit losses based on expected future uncollectible accounts receivable using forecasts of future economic conditions in addition to information about past events and current conditions.. Management provides an allowance for credit losses based on the Company's historical losses, specific customer circumstances, and general economic conditions. Periodically, management reviews accounts receivable and adjusts the allowance based on current circumstances and charges off uncollectible receivables when all attempts to collect have been exhausted and the prospects for recovery are remote. Recoveries are recognized when they are received. Actual collection losses may differ from our estimates and could be material to our financial position, results of operations, and cash flows. At September 30, 2023 and December 31, 2022, an allowance for credit losses of \$2,050,917 and \$2,918,869, respectively, was recorded.

The Company also has an agreement with a third party to be able to receive advance payments for certain accounts receivables, for a specified fee. Under this agreement, the respective customer will repay the third party within a predetermined term. Receivables transferred under this agreement generally meet the requirements to be accounted for as sales in accordance with Accounting Standards Codification ("ASC") 860, "*Transfers and Servicing*." ASC 860 requires that several conditions be met in order to present the transfer of accounts receivable as a sale. The Company has isolated the transferred (sold) assets and has the legal right to transfer its assets (accounts receivable). In addition, control has effectively been transferred.

Inventory

Inventory is valued at the lower of cost or net realizable value using the first-in, first-out method. The reported net value of inventory includes finished saleable products that will be sold or used in future periods. The Company reserves for obsolete and slow-moving inventory. At September 30, 2023 and December 31, 2022, there were no reserves for obsolete and slow-moving inventory.

Property and Equipment

Property and equipment are recorded at cost, less accumulated depreciation. The Company provides for depreciation on a straight-line basis over the estimated useful lives of the assets which are as follows: furniture 5 years, computers 3 years, production equipment 5 years, auto 5 years, tooling and molds 3 years, application development 3 years and website design in progress 4 years. Leasehold improvements are amortized over the shorter of the lease term or the estimated useful life of the related assets when they are placed into service. The Company evaluates property and equipment for impairment periodically to determine if changes in circumstances or the occurrence of events suggest the carrying value of the asset or asset group may not be recoverable. Maintenance and repairs are charged to operations as incurred. Expenditures which substantially increase the useful lives of the related assets are capitalized.

Long-lived Assets

In accordance with ASC 360, "*Property, Plant, and Equipment*," the Company tests long-lived assets or asset groups for recoverability when events or changes in circumstances indicate that their carrying amount may not be recoverable. Circumstances which could trigger a review include, but are not limited to: significant decreases in the market price of the asset; significant adverse changes in the business climate or legal factors; accumulation of costs significantly in excess of the amount originally expected for the acquisition or construction of the asset; current period cash flow or operating losses combined with a history of losses or a forecast of continuing losses associated with the use of the asset; and current expectation that the asset will more likely than not be sold or disposed of significantly before the end of its estimated useful life. Recoverability is assessed based on the carrying amount of the asset compared to the estimated future undiscounted cash flows expected to result from the use and the eventual disposal of the asset, as well as specific appraisal in certain instances. An impairment loss equal to the excess of the carrying value over the assets fair market value is recognized when the carrying amount exceeds the undiscounted cash flows. The impairment loss is recorded as an expense and a direct write-down of the asset. No impairment loss was recorded during the nine months ended September 30, 2023 and 2022.

Common stock purchase warrants

The Company accounts for the common stock purchase warrants in accordance with the guidance contained in ASC 815-40, under which the warrants do not meet the criteria for equity treatment and must be recorded as liabilities. Accordingly, the Company classifies the warrants as liabilities at their fair value and adjusts the warrants to fair value in respect of each reporting period. This liability is subject to re-measurement at each balance sheet date until the warrants are exercised, and any change in fair value is recognized in the statements of operations.

Fair Value of Financial Instruments and Fair Value Measurements

The Company adheres to ASC 820, which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. ASC 820 applies to reported balances that are required or permitted to be measured at fair value under existing accounting pronouncements; accordingly, the standard does not require any new fair value measurements of reported balances.

ASC 820 emphasizes that fair value is a market-based measurement, not an entity-specific measurement. Therefore, a fair value measurement should be determined based on the assumptions that market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, ASC 820 establishes a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

- Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company could access.
- Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets and liabilities in active markets, as well as inputs that are observable for the asset or liability (other than quoted prices), such as interest rates, foreign exchange rates, and yield curves that are observable at commonly quoted intervals.
- Level 3 inputs are unobservable inputs for the asset or liability, which is typically based on an entity's own assumptions, as there is little, if any, related market activity.

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability.

The fair value of the Company's warrant and preferred investment liability recorded in the Company's financial statements was determined using a Black-Scholes valuation methodology and the quoted price of the Company's common stock in an active market, a Level 3 measurement. Volatility was based on the actual market activity of the Company for the period in which the Company was public and its peer group for the remaining period. The expected life was based on the remaining contractual term of the warrants, and the risk-free interest rate was based on the implied yield available on U.S. Treasury Securities with a maturity equivalent to the warrants' expected life.

The Company calculated the estimated fair value of warrants on the date of issuance and at each subsequent reporting date using the following assumptions:

	At September 30, 2023	At December 31, 2022
Risk-free interest rate	4.6% - 5.03%	4.06% - 4.32%
Contractual term	1.75 - 5 years	1.75 - 4.75 years

Revenue Recognition

The Company recognizes revenues when product is delivered to the customer, and the ownership is transferred. The Company's revenue recognition policy is based on the revenue recognition criteria established under the Financial Accounting Standards Board – Accounting Standards Codification 606 *"Revenue From Contracts With Customers"* which has established a five-step process to govern contract revenue and satisfy each element as follows: (1) Identify the contract(s) with a customer; (2) identify the performance obligations in the contract; (3) determine the transaction price; (4) allocate the transaction price to the performance obligations in the contract; and (5) recognize revenue when or as you satisfy a performance obligation. The Company records the revenue once all the above steps are completed. See Note 8 for further information on revenue recognition.

Advertising

Advertising costs are expensed as incurred. Advertising expense totalled \$138,060 and \$514,615 for the three months ended September 30, 2023 and 2022, respectively. Advertising expense totalled \$621,988 and \$2,805,812 for the nine months ended September 30, 2023 and 2022, respectively.

Patents

Legal fees and similar costs incurred relating to patents are capitalized and are amortized over their estimated useful life once determined. Such costs amounted to \$1,784,691 and \$1,459,232 as of September 30, 2023 and December 31, 2022, respectively, and are included in other assets on the accompanying condensed consolidated balance sheets. Amortization is expected to commence during the fourth quarter of 2023.

Research and Development

Expenditures for research activities relating to patents and product development are charged to expense as incurred. Such expenditures amounted to \$2,916,349, and \$2,781,676 for the three months ended September 30, 2023 and 2022, respectively, and \$9,357,273 and \$8,050,481 for the nine months ended September 30, 2023 and 2022, respectively.

Income Taxes

The Company accounts for income taxes following the asset and liability method in accordance with ASC 740 "Income Taxes." Under such method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the condensed consolidated financial statement carrying amounts of existing assets and liabilities and their respective tax bases. The Company applies the accounting guidance issued to address the accounting for uncertain tax positions. This guidance clarifies the accounting for income taxes, by prescribing a minimum recognition threshold a tax position is required to meet before being recognized in the financial statements as well as provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. The Company classifies interest and penalty expense related to uncertain tax positions as a component of income tax expense. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years that the asset is expected to be recovered or the liability settled. A valuation allowance is provided when it is more likely than not that some portion or all of a deferred tax asset will not be realized. The ultimate realization of deferred tax assets depends on the generation of future taxable income during the period in which related temporary differences become deductible. The Company considers the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in its assessment of a valuation allowance.

During 2020, the Coronavirus Aid, Relief and Economic Security Act ("CARES Act") was passed, which temporarily removed 80% limitations on net operating loss carryforwards for the years 2019 and 2020.

The Company adopted FASB ASU 2019-12, "Income Taxes (Topic 740): Simplifying the Accounting of Income Taxes" ("ASU 2019-12"), as of January 1, 2021. ASU 2019-12 removes certain exceptions to the general principles in Topic 740 and clarifies and amends existing guidance to improve consistent application. The adoption of this guidance did not have a material impact on its financial statements.

Stock Based Compensation

The Company accounts for stock-based compensation in accordance with ASC 718-10, “*Share-Based Payment*,” which requires the measurement and recognition of compensation expense for all share-based payment awards made to employees and directors including employee stock options, restricted stock units and employee stock purchases based on estimated fair values. In addition, as of January 1, 2020, the Company adopted Accounting Standards Update (“ASU”) 2018-07, *Compensation – Stock Compensation (Topic 718), Improvements to Nonemployee Share-Based Payment Accounting*. This ASU simplified aspects of share-based compensation issued to non-employees by making the guidance consistent with accounting for employee share-based compensation. The adoption of this guidance did not have a material impact on the financial statements.

The Company estimates the fair value of stock options granted using the Black-Scholes option-pricing formula. This fair value is then amortized on a straight-line basis over the requisite service periods of the awards, which is generally the vesting period. The Company’s determination of fair value using an option-pricing model is affected by the stock price as well as assumptions regarding the number of highly subjective variables.

The Company estimates volatility based upon the historical stock price of the comparable companies and estimates the expected term for employee stock options using the simplified method for employees and directors and the contractual term. The risk-free rate is determined based upon the prevailing rate of United States Treasury securities with similar maturities.

The Company recognizes forfeitures as they occur rather than applying a prospective forfeiture rate in advance.

Leases

The Company accounts for its leases under ASC 842, *Leases*. Under this guidance, arrangements meeting the definition of a lease are classified as operating or financing leases and are recorded on the condensed consolidated balance sheet as both a right of use asset and lease liability, calculated by discounting fixed lease payments over the lease term at the rate implicit in the lease or the Company’s incremental borrowing rate which is consummate with the respective lease term. Lease liabilities are increased by interest and reduced by payments each period, and the right of use asset is amortized over the lease term. For operating leases, interest on the lease liability and the amortization of the right of use asset result in straight-line rent expense over the lease term.

In calculating the right of use asset and lease liability, the Company elects to combine lease and non-lease components as permitted under ASC 842. The Company excludes short-term leases having initial terms of 12 months or less from the new guidance as an accounting policy election and recognizes rent expense on a straight-line basis over the lease term.

Loss per Share

The Company computes net loss per share in accordance with ASC 260, “*Earnings per Share*.” ASC 260 requires presentation of both basic and diluted net earnings per share (“EPS”) on the face of the statement of operations. Basic EPS is computed by dividing loss available to common shareholders (numerator) by the weighted average number of shares outstanding (denominator) during the period. Diluted EPS gives effect to all dilutive potential common shares outstanding during the period using the treasury stock method and convertible preferred stock using the if-converted method. In computing diluted EPS, the average stock price for the period is used in determining the number of shares assumed to be purchased from the exercise of warrants, convertible preferred stock and convertible debentures. Diluted EPS excludes all dilutive potential shares if their effect is anti-dilutive.

	Three Months Ended September 30,		Nine Months Ended September 30,

Potentially dilutive securities that are not included in the calculation of diluted net loss per share because their effect is anti-dilutive are as follows as of September 30, 2023 and 2022 (in common equivalent shares):

	September 30,

Segment Reporting

The Company operates one reportable segment referred to as the tools segment. A single management team that reports to the Chief Executive Officer comprehensively manages the business. Accordingly, the Company does not have separately reportable segments.

Recent Accounting Pronouncements

As an emerging growth company, the Company has elected to use the extended transition period for complying with any new or revised financial accounting standards pursuant to Section 13(a) of the Securities and Exchange Act of 1934, as amended (the “Exchange Act”).

In June 2016 and subsequently amended in March 2022, the FASB issued ASC 326, Financial Instruments – Credit Losses (Topic 326): Measurements of Credit Losses on Financial Instruments (“ASC 326”), which replaces the existing incurred loss model with a current expected credit loss (“CECL”) model that requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. The Company would be required to use a forward-looking CECL model for accounts receivables, guarantees and other financial instruments. The Company adopted ASC 326 on January 1, 2023 and ASC 326 did not have a material impact on its financial statements.

NOTE 4 – LEASES

On January 3, 2017, the Company executed a non-cancellable operating lease for its principal office with the lease commencing February 1, 2017 for a five (5) year term. The Company paid a security deposit of \$29,297. The lease required the Company to pay its proportionate share of direct costs estimated to be 2.54% of the total property, a fixed monthly direct cost of \$6,201 for each month during the term of the lease, and monthly rental pursuant to the lease terms. This lease expired during February 2022.

In December 2019, the Company entered a lease for office space located at 8669 Research Drive, Irvine, CA, 92618 to replace the Company's then current corporate headquarters. The lease commenced on December 1, 2019 with no rent due until April 1, 2020. From April 1, 2020 through March 31, 2025, base rent is due on the first of each month in the amount of \$25,200 escalating annually on December 1st of each year to \$29,480 beginning December 1, 2023. The Company paid an initial amount of \$8,128 comprising the rent for April 2020, a security deposit and the amount due for property taxes, insurance and association fees.

In addition, the Company entered into two leases for additional space in Irvine, CA. The leases commenced March 1, 2022 and June 1, 2022. Base rent is initially \$16,250 and \$48,379 with escalations contained in the lease through February 28, 2027 and May 31, 2027.

The Company also leases space in the United Kingdom. The lease expires January 1, 2027, with monthly payments of approximately \$41,000.

Supplemental balance sheet information related to leases is as follows as of September 30, 2023:

Operating leases	
Right-of-use assets, net	\$4,021,988
Current liabilities	1,247,062
Non-current liabilities	<u>3,013,214</u>
Total operating lease liabilities	<u>\$4,260,276</u>
Weighted Average Remaining Lease Term	3.34 years
Weighted Average Discount Rate	4%

As the leases do not provide an implicit rate, the Company used an incremental borrowing rate based on the information available at the lease commencement date in determining the present value of the lease payments, which is reflective of the specific term of the leases and economic environment of each geographic region.

Anticipated future lease costs are as follows:

For the years ending December 31,	Building leases
2023 (remaining)	\$ 352,722
2024	1,481,667
2025	1,245,379
2026	1,211,105
2027	<u>333,915</u>
Total lease payments	4,624,788
Less: imputed interest	<u>364,512</u>
Present value of lease liabilities	<u>\$4,260,276</u>

The Company recorded rent expense of \$1,442,730 and \$691,107 for the nine months ended September 30, 2023 and 2022, respectively. The Company recorded rent expense of \$430,839 and \$233,200 for the three months ended September 30, 2023 and 2022, respectively.

NOTE 5 – COMMITMENTS AND CONTINGENCIES

Litigation Costs and Contingencies

From time to time, the Company may become involved in various lawsuits and legal proceedings, which arise in the ordinary course of business. Litigation is subject to inherent uncertainties, and an adverse result in these or other matters may arise from time to time that may harm our business. Other than as set forth below, management is currently not aware of any such legal proceedings or claims that could have, individually or in the aggregate, a material adverse effect on our business, financial condition, or operating results.

In the normal course of business, the Company incurs costs to hire and retain external legal counsel to advise it on regulatory, litigation and other matters. The Company expenses these costs as the related services are received. If a loss is considered and the amount can be reasonably estimated, the Company recognizes an expense for the estimated loss.

On October 7, 2022, one of our stockholders (the “2022 Plaintiff”), filed a shareholder derivative action against us, Michael Panosian, Joshua Keeler, Zareh Khachatourian, Martin Galstyan, et. al. (collectively, the “2022 Defendants”) in the Eighth Judicial District Court of Nevada, Case No. A-22-859580-B. In the complaint, the 2022 Plaintiff alleged a breach of the applicable 2022 Defendants’ fiduciary duties of loyalty, good faith, and due care owed to us and our shareholders, by negligently, willfully, recklessly and/or intentionally failing to perform their fiduciary duties primarily in connection with our registered direct offering of 2,500 shares of Series F preferred stock and 2,500 shares of Series G preferred stock in February 2022 and subsequent 1-for-150 reverse stock split effected in April 2022. The 2022 Plaintiff claimed that the 2022 Plaintiff has suffered (i) monetary damages in excess of \$10,000, and (ii) attorney fees and costs, and is entitled to reimbursement. The 2022 Plaintiff asked for the following relief (i) issuance of a preliminary injunction enjoining us and the Board from continued of their fiduciary duties; (ii) damages incurred by the plaintiff; (iii) for an accounting of our books and records; (iv) equity relief; and (v) reimbursements of attorney and courts fees and other related costs. We believe that the claims put forth by the 2022 Plaintiff are without merit and we intend to vigorously defend ourselves and the officers named in the complaint.

On June 22, 2023, PCS Properties 2, LLC (the “Plaintiff”) filed a first amended complaint in the Superior Court, State of California, County of Orange, Central Justice Center (Case No. 30-2023-01326779-CU-UD-CJC) against the Company. In the complaint, the Plaintiff is suing the Company for Breach of the Company’s lease agreement, dated December 10, 2021 (the “Lease”), for the real property located at 8687 Research Drive, Suites 100, 150, 250, Irvine, CA 92618 (collectively, the “Premises”). NOTE 8: REVENUE RECOGNITION AND RESERVE FOR SALES RETURNS AND ALLOWANCES

The Company's contracts with customers only include one performance obligation (i.e., sale of the Company's products). Revenue is recognized in the gross amount at a point in time when delivery is completed and control of the promised goods is transferred to the customers. Revenue is measured as the amount of consideration the Company expects to be entitled to in exchange for those goods. The Company's contracts do not involve financing elements as payment terms with customers are less than one year. Further, because revenue is recognized at the point in time goods are sold to customers, there are no contract asset or contract liability balances. The Company does not disclose remaining performance obligations related to contracts with durations of one year or less as allowed by the practical expedient applicable to such contracts.

The Company disaggregates its revenues by major geographic region. See Note 9, Concentrations, Geographic Data, and Sales by Major Customers, for further information.

The Company accounts for fees paid to Amazon for products sold through its Amazon Stores as operating expense.

The Company offers various discounts, pricing concessions, and other allowances to customers, all of which are considered in determining the transaction price. Certain discounts and allowances are fixed and determinable at the time of sale and are recorded at the time of sale as a reduction in revenue. Other discounts and allowances can vary and are determined at management's discretion (variable consideration). Specifically, the Company occasionally grants discretionary credits to facilitate markdowns and sales of slow-moving merchandise and consequently accrues an allowance based on historic credits and management estimates. Further, the Company allows sales returns, and consequently records a sales return allowance based upon historic return amounts and management estimates. These allowances (variable consideration) are estimated using the expected value method and are recorded at the time of sale as a reduction to revenue. The Company adjusts its estimate of variable consideration at least quarterly or when facts and circumstances used in the estimation process may change. The variable consideration is not constrained as the Company has sufficient history on the related estimates and does not believe there is a risk of significant revenue reversal.

The Company also participates in cooperative advertising arrangements with some customers, whereby it allows a discount from invoiced product amounts in exchange for customer purchased advertising that features the Company's products. Generally, these allowances range from 2% to 5% of gross sales and are generally based upon product purchases or specific advertising campaigns. Such allowances are accrued when the related revenue is recognized. These cooperative advertising arrangements provide a distinct benefit and fair value and are accounted for as direct selling expenses.

Sales commissions are expensed when incurred as the related revenue is recognized at a point in time and therefore, the amortization period is less than one year. As a result, these costs are recorded as direct selling expenses, as incurred.

The Company has also elected to adopt the practical expedient related to shipping and handling fees which allows the Company to account for shipping and handling activities that occur after control of the related good transfers as fulfillment activities instead of assessing such activities as performance obligations. Therefore, shipping and handling activities are considered part of the Company's obligation to transfer the products and therefore are recorded as direct selling expenses, as incurred.

The Company's reserve for sales returns and allowances amounted to \$407,246 as of September 30, 2023 and December 31, 2022.

We are continuing to focus our efforts on increased marketing campaigns, and distribution programs to strengthen the demand for our products globally. Management anticipates that our capital resources will improve as our products gain wider market recognition and acceptance resulting in increased product sales.

As discussed below, while we have faced the impacts of COVID-19 and inflation, we have been able to obtain significant revenue growth. Notwithstanding, we have incurred substantial operating losses since our inception and anticipate incurring additional losses for the foreseeable future until such time, if ever, that we can commercialize our technology currently in development. In their audit report included in this Quarterly Report on Form 10-Q, our auditors have expressed that there is substantial doubt as to our ability to continue as a going concern. To fund our operations and grow our business, we will require to fund our capital requirements through the sale of debt or equity securities or other arrangements. There can be no assurances that we will be able to obtain additional financing on acceptable terms, if at all. If we are unable to obtain such additional financing, future operations would need to be scaled back or discontinued. See *“Liquidity and Capital Resources; Going Concern”* below and *“We will require additional capital in order to achieve commercial success and, if necessary, to finance future losses from operations as we endeavor to build revenue, but we do not have any commitments to obtain such capital and we cannot assure you that we will be able to obtain adequate capital as and when required”* in Part I, Item 1A in our Annual Report on Form 10-K for the year ended December 31, 2022 filed with the SEC on March 31, 2023.

Our Business Strategy

Our product strategy is to develop product lines in several categories rather than focus on a single line of goods. We believe that this approach allows for rapid growth, and wider brand recognition, and may ultimately result in increased sales and profits within an accelerated time period. We believe that building brand awareness of our current ToughBuilt lines of products will expand our share of the pertinent markets. Our business strategy includes the following key elements:

- A commitment to technological innovation achieved through consumer insight, creativity and speed to market;

- A broad selection of products in both brand and private labels;
- Prompt response;
- Superior customer service; and
- Value pricing.

We will continue to consider other market opportunities while focusing on our customers' specific requirements to increase sales.

Market

In addition to the construction market, our products are marketed to the “Do-It-Yourself” and home improvement marketplace. The U.S. housing stock of more than 130 million homes requires regular investment merely to offset normal depreciation. According to Statista.com¹, in recent years, the U.S. home improvement industry has witnessed steady growth, and the trend is expected to continue in the near future.

TOUGHBUILT® products are available worldwide in many major retailers ranging from home improvement and construction products and services stores to major online outlets. Currently, we have placements in Lowes, Home Depot, Menards, Bunnings (Australia), Princess Auto (Canada), Dong Shin Tool PIA (S. Korea) as well as seeking to grow our sales in global markets such as Western and Central Europe, Eastern Europe, South America and the Middle East.

Retailers by region include:

- United States: Lowe’s, Home Depot, Menards, GM products, Fire Safety, Hartville Hardware, ORR, Pooley, Wesco, Buzzi and Western Pacific Building Materials.
- Canada: Princess Auto.
- United Kingdom distribution throughout the UK and online selling for Europe.
- Australia: Kincrome, and Bunnings.
- New Zealand: Kincrome, and Bunnings.
- South Korea: Dong Shin Tool PIA Co., Ltd.

We are actively expanding into markets in Mexico and other Latin American countries, the Middle East and South Africa.

We are currently in product line reviews and discussions with Home Depot Canada, Do It Best, True Value and other major retailers both domestically and internationally. A product line review requires the supplier to submit a comprehensive proposal that includes product offerings, prices, competitive market studies, relevant industry trends and other information. Management anticipates, within the near term, adding to its customer base up to three major retailers, along with several distributors and private retailers within six sectors and among fifty-six targeted countries.

Mobile Device Products

Since 2013, we have been planning, designing, engineering and sourcing the development of a new line of ToughBuilt mobile devices and accessories to be used in the construction industry and by building enthusiasts. However, due to microchip shortages, we have suspended this segment and will continue development in the near future.

Intellectual Property

We hold several patents and trademarks of various durations and believe that we hold or have applied for, or license all the patent, trademark and other intellectual property rights necessary to conduct our business. We utilize trademarks (licensed and owned) on nearly all our products and believe having distinctive marks that are readily identifiable is an important factor in creating a market for our goods, in identifying our brands and our Company, and in distinguishing our goods from the goods of others. We consider our ToughBuilt®, Cliptech®, and Fearless® trademarks to be among our most valuable intangible assets. Trademarks registered both in and outside the U.S. are generally valid for 10 years, depending on the jurisdiction, and are generally subject to an indefinite number of renewals for a like period on appropriate application.

In 2019, the United States Patent and Trademark Office (USPTO) granted two new design patents (U.S. D840,961 S and US D841,635 S) that cover ToughBuilt's ruggedized mobile devices, which are valid for a period of 15 years. We also have several patents pending with the USPTO and anticipate three or four of them to be granted in the near future.

Competition

The tool equipment and accessories industry is highly competitive on a worldwide basis. We compete with a significant number of other tool equipment and accessories manufacturers and suppliers to the construction, home improvement and Do-It-Yourself industry, many of which have the following:

- Significantly greater financial resources than we have;
- More comprehensive product lines;
- Longer-standing relationships with suppliers, manufacturers and retailers;
- Broader distribution capabilities;
- Stronger brand recognition and loyalty; and
- The ability to invest substantially more in product advertising and sales.

Our competitors' greater capabilities in the above areas enable them to better differentiate their products from ours, gain stronger brand loyalty, withstand periodic downturns in the construction and home improvement equipment and product industries, and compete effectively based on price and production, and more quickly develop new products. These competitors include DeWalt, Caterpillar and Samsung Active.

Nasdaq Deficiency Notice; Series H Preferred Stock Dividend and Intended Reverse Stock Split

As previously reported by the Company on a Form 8-K filed with the SEC on July 11, 2023, on July 7, 2023, the Company received written notice from The Nasdaq Stock Market LLC ("Nasdaq") stating that the Company failed to maintain a minimum bid price of at least \$1.00 per share for the prior 30 consecutive trading day period from May 23, 2023 to July 6, 2023, based upon the closing bid price for its common stock as required by Nasdaq Listing Rule 5550(a)(2) (the "Bid Price Requirement"). Pursuant to Nasdaq Listing Rule 5810(c)(3)(A), the Company has 180 calendar days, or until January 3, 2024, to regain compliance with the Bid Price Requirement under Nasdaq Listing Rule 5550(a)(2). During the compliance period, the Company's common stock will continue to be listed and traded on the Nasdaq Capital Market. To regain compliance, the closing bid price of the Company's common stock must meet or exceed \$1.00 per share for a minimum of 10 consecutive trading days, unless extended by Nasdaq under Nasdaq Rule 5810(c)(3)(G), prior to January 3, 2024. In the event the Company does not regain compliance during the compliance period, the Company may be eligible for additional 180 calendar days to comply with Nasdaq Listing Rule 5550(a)(2), subject to the Company satisfying the continued listing requirement for the market value of publicly held shares and all other initial listing standards for the Nasdaq Capital Market with the exception of the bid price requirement, subject to Nasdaq's approval.

There can be no assurance that we will regain compliance with the Bid Price Requirement by the January 4, 2024 deadline, or that we will be eligible for the second 180 day compliance period. Our inability to regain compliance with the Bid Price Requirement would materially impair our ability to raise capital. Moreover, if we were unable to regain compliance with the Bid Price Requirement, our common stock would likely then trade only in the over-the-counter market and the market liquidity of our common stock could be adversely affected and its market price could decrease. If our common stock were to trade on the over-the-counter market, selling our common stock could be more difficult because smaller quantities of shares would likely be bought and sold, transactions could be delayed, and we could face significant material adverse consequences, including: a limited availability of market quotations for our securities; reduced liquidity with respect to our securities; a determination that our shares are a "penny stock," which will require brokers trading in our securities to adhere to more stringent rules, possibly resulting in a reduced level of trading activity in the secondary trading market for our securities; a reduced amount of news and analyst coverage; and a decreased ability to issue additional securities or obtain additional financing in the future. These factors could result in lower prices and larger spreads in the bid and ask prices for our common stock and would substantially impair our ability to raise additional funds and could result in a loss of institutional investor interest and fewer development opportunities for us.

As previously reported by the Company on a Form 8-K filed with the SEC on September 21, 2023, on September 21, 2023, the Company's board of directors declared a dividend of one one-thousandth (0.001) of a share of Series H Preferred Stock, par value \$0.0001 per share ("Series H Preferred Stock"), for each outstanding share of the Company's common stock to stockholders of record at 5:00 p.m. Eastern Time on October 2, 2023 (the "Record Date").

On September 21, 2023, the Company filed a certificate of designation (the "Certificate of Designation") with the Nevada Secretary of State therein establishing the Series H Preferred Stock and describing the rights, obligations and privileges of the Series H Preferred Stock.

The Series H Preferred Stock consists of 50,000 shares. Except as otherwise provided by the Company's Amended and Restated Articles of Incorporation or bylaws or required by law, each share of Series H Preferred Stock entitles the holder thereof to 1,000,000 votes per share (and, for the avoidance of doubt, each fraction of a share of Series H Preferred Stock will have a ratable number of votes) exclusively with respect to (i) any proposal by the board to effect a reverse stock (the "Reverse Stock Split"); and (ii) any proposal to adjourn any meeting of shareholders called for the purpose of voting on Reverse Stock Split (the "Adjournment Proposal"). The Series H Preferred Stock is not entitled to vote on any other matter, except to the extent required under the Nevada Revised Statutes. All shares of Series H Preferred Stock that are not present in person or by proxy at any meeting of stockholders held to vote on the Reverse Stock Split and the Adjournment Proposal as of immediately prior to the opening of the polls at such meeting (the "Initial Redemption Time") will automatically be redeemed in whole, but not in part, by the Company at the Initial Redemption Time without further action on the part of the Company or the holder of shares of Series H Preferred Stock (the "Initial Redemption"). Any outstanding shares of Series H Preferred Stock that have not been redeemed pursuant to an Initial Redemption shall be redeemed in whole, but not in part, (i) if such redemption is ordered by the Board in its sole discretion, automatically and effective on such time and date specified by the Board in its sole discretion or (ii) automatically upon the approval by the Company's shareholders of the Reverse Stock Split at any meeting of the shareholders held for the purpose of voting on such proposal (the "Subsequent Redemption" and, together with the Initial Redemption, the "Redemptions" and each a "Redemption"). Each share of Series H Preferred Stock redeemed in any Redemption shall be redeemed in consideration for the right to receive an amount equal to One Cent (\$0.01) in cash for each hundred (100) whole shares of Series H Preferred Stock that are "beneficially owned" by the "beneficial owner" (as such terms are defined below) thereof as of the applicable Redemption Time and redeemed pursuant to such Redemption, payable upon receipt by the Company of a written request submitted by the applicable holder to the corporate secretary of the Company (each a "Redemption Payment Request") following the applicable Redemption Time.

The Series H Preferred Stock do not have conversion or exchange rights and is not entitled to receive dividends. The Series H Preferred will rank senior to the common stock as to any distribution of assets upon a liquidation, dissolution or winding up of the Company, whether voluntarily or involuntarily (a "Dissolution"). Upon any Dissolution, each holder of outstanding shares of Series H Preferred Stock will be entitled to be paid out of the assets of the Company available for distribution to stockholders, prior and in preference to any distribution to the holders of Common Stock, an amount in cash equal to \$0.01 per outstanding share of Series H Preferred Stock.

On October 30, 2023, the Company filed a proxy statement with the SEC in connection with the Company's 2023 Annual Stockholder Meeting to be held on December 12, 2023. Provided a quorum is present in person or by proxy at the meeting, at the meeting the holders of the outstanding common stock and Series H Preferred Stock will be asked to vote approve a Reverse Stock Split of the Company's common stock at a ratio of 1-for-20 to 1-for-100, with the ratio within such range to be determined at the discretion of the board and included in a public announcement. The Company believes that the Reverse Stock Split will enable the Company to regain compliance with Nasdaq's Bid Price Requirement but there can be no assurances that it will be successful in doing so.

Key factors affecting our performance

As a result of a number of factors, our historical results of operations may not be comparable to our results of operations in future periods, and our results of operations may not be directly comparable from period to period. Set forth below is a brief discussion of the key factors impacting our results of operations.

Known Trends and Uncertainties

Seasonality

Our business is seasonal as a result of our China-based production. For the first calendar quarter, we are not able to ship our products from China due to the hiatus as a result of their New Year holidays. We typically make up the lost sales from the first calendar quarter in the subsequent quarters.

Inflation

Prices of certain commodity products, including raw materials, are historically volatile and are subject to fluctuations arising from changes in domestic and international supply and demand, labor costs (e.g., in China), competition, market speculation, government regulations, trade restrictions and tariffs. Increasing prices in the component materials for the parts of our goods may impact the availability, the quality and the price of our products, as suppliers search for alternatives to existing materials and increase the prices they charge. Our suppliers may also fail to provide consistent quality products as they may substitute lower-cost materials to maintain pricing levels. Rapid and significant changes in commodity prices may negatively affect our profit margins if we are unable to mitigate any inflationary increases through various customer pricing actions and cost reduction initiatives. To offset increased prices charged by our manufacturers and increased shipping rates, we increased the prices of our products in 2022.

Supply Chain

We acquire a majority of our products from manufacturers and distributors located in China, India and the Philippines. We do not have any long-term contracts or exclusive agreements with our foreign suppliers that would ensure our ability to acquire the types and quantities of products we desire at acceptable prices and in a timely manner. We utilize a number of techniques to address potential disruption in and other risks relating to our supply chain, including in certain cases the use of other qualified suppliers. We decreased our inventory from \$40,365,286 at December 31, 2022 to \$28,070,889 at September 30, 2023. Due to our inventory levels in 2022 and the nine months ended September 30, 2023, the ongoing supply chain disruptions have not had a material adverse effect on our operations and we do not currently anticipate that any continued supply chain disruptions will have a material adverse effect on our operations for the fiscal year 2023.

Results of Operations

The three months ended September 30, 2023 compared to the three months ended September 30, 2022.

Revenues

Revenues for the three months ended September 30, 2023 and 2022 were \$20,630,207 and \$30,245,251, respectively, which consisted of metal goods, soft goods and electronic goods sold to customers. Revenues decreased in 2023 over 2022 by \$9,615,044, or 31.8%, primary due to decrease in demand.

Cost of Goods Sold

Cost of goods sold for the three months ended September 30, 2023 and 2022 was \$15,717,233 and \$22,328,094, respectively. Cost of goods sold decreased in 2023 over 2022 by \$6,610,861, or 30%, primarily due to our decrease in sales. Cost of goods sold as a percentage of revenues in 2023 was 76.19% as compared to cost of goods sold as a percentage of revenues in 2022 of 73.82%.

Operating Expenses

Operating expenses consist of selling, general and administrative expenses and research and development costs. Selling, general and administrative expenses (the "SG&A Expenses") for the three months ended September 30, 2023 and 2022 were \$12,572,066 and \$14,676,135, respectively. SG&A Expenses decreased in 2023 over 2022 by \$2,104,069, or 14%, primarily due to a decrease in salaries. SG&A Expense for the quarter ended September 30, 2023 as a percentage of revenues was 60.94%, compared to 48.52% for the quarter ended September 30, 2022. We expect our SG&A Expenses will continue to decrease as our business matures, and we develop economies of scale.

Research and development costs ("R&D") for the three months ended September 30, 2023 and 2022 were \$2,916,349 and \$2,781,676, respectively. R&D costs increased by \$134,673, or 4.8%. This increase was primarily due to developing new tools for the construction industry.

Other Expense

Net Income (Loss)

Due to factors set forth above, we recorded a net loss of \$14,248,574 for the three months ended September 30, 2023 as compared to a net income of \$8,006,430 for the three months ended September 30, 2022.

The nine months ended September 30, 2023 compared to the nine months ended September 30, 2022.

Revenues

Revenues for the nine months ended September 30, 2023 and 2022 were \$59,722,486 and \$65,353,651, respectively, which consisted of metal goods, soft goods and electronic goods sold to customers. Revenues decreased in 2023 over 2022 by \$5,631,165, or 8.6%, primarily due to decrease in demand.

Cost of Goods Sold

Cost of goods sold for the nine months ended September 30, 2023 and 2022 was \$45,411,269 and \$49,484,951, respectively. Cost of goods sold decreased in 2023 over 2022 by \$4,073,682 or 8%, primarily due to our decrease in sales. Cost of goods sold as a percentage of revenues in 2023 was 76% as compared to cost of goods sold as a percentage of revenues in 2022 of 75.72%.

Operating Expenses

Operating expenses consist of selling, general and administrative expenses and research and development costs. Selling, general and administrative expenses (the “SG&A Expenses”) for the nine months ended September 30, 2023 and 2022 were \$42,618,510 and \$45,106,976, respectively. SG&A Expenses decreased in 2023 over 2022 by \$2,488,466, or 5.5% primarily due to a decrease in salaries. SG&A Expense for the nine months ended September 30, 2023 as a percentage of revenues was 71.36% compared to 69.02% for the nine months ended September 30, 2022. We expect our SG&A Expenses will start to increase at a lower rate as our business matures, and we develop economies of scale.

Research and development costs (“R&D”) for the nine months ended September 30, 2023 and 2022 were \$9,357,273 and \$8,050,481, respectively. R&D costs increased by \$1,306,792, or 16.2%. This increase was primarily due to the development of new tools for the construction industry.

Other Expense

Other income (expense) for the nine months ended September 30, 2023 consisted of warrant issuance costs in the amount of \$538,218 interest expense of \$1,433,975, inducement expense of \$6,373,353 and change in fair value of warrant liabilities in the sum of \$17,761,007. Other expense for the nine months ended September 30, 2022 consisted of warrant issuance costs in the amount of \$1,415,229, interest expense of \$640,603 and change in fair value of warrant and preferred investment option liabilities in the sum of \$23,111,029.

Net Income (Loss)

Due to factors set forth above, we recorded a net loss of \$28,249,105 for the nine months ended September 30, 2023 as compared to a net loss of \$16,233,560 for the nine months ended September 30, 2022.

Liquidity and Capital Resources; Going Concern

We had \$1.8 million in cash at September 30, 2023 compared to \$2.6 million at December 31, 2022. We have incurred substantial operating losses since its inception. As reflected in the condensed consolidated financial statements, we had an accumulated deficit of approximately \$173.2 million at September 30, 2023, a net loss of approximately \$28.2 million, and approximately \$4.1 million of net cash used by operating activities for the nine months ended September 30, 2023. The accompanying condensed consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might result from the outcome of this uncertainty. We anticipate incurring additional losses until such time, if ever, that it can obtain marketing approval to sell, and then generate significant sales, of its technology that is currently in development. As such it is likely that additional financing will be needed by us to fund our operations and to develop and commercialize our technology.

On June 23, 2023, we completed a public offering (the “June 2023 Offering”) of (i) 6,089,025 shares of common stock (“June 2023 Common Shares”), (ii) 4,886,586 prefunded warrants (the “June 2023 Prefunded Warrants”) to purchase 4,886,586 shares of common stock of the Company (the “June 2023 Prefunded Warrant Shares”) and (iii) 10,975,611 Series D warrants (the “Series D Common Warrants”) to purchase 10,975,611 shares of common stock of the Company (the “Series D Common Warrant Shares”). The offering price of each June 2023 Common Share and accompanying Series D Common Warrant was \$0.41, and the offering price of each Prefunded Warrant and accompanying Class D Common Warrant was \$0.4099.

Subject to certain ownership limitations described in the Series D Common Warrants, the Series D Common Warrants have an exercise price of \$0.29 per share of common stock, are exercisable upon issuance and will expire five years from the date of issuance. The exercise price of the Series D Common Warrants is subject to adjustment for stock splits, reorganizations, recapitalizations and similar capital transactions as described in the Series D Common Warrants.

We received net proceeds of approximately \$3,800,000 from the June 2023 Offering, after deducting the estimated June 2023 Offering expenses payable by the Company.

On August 17, 2023, the Company issued in a private placement, common stock purchase warrants (the “New Warrants”) to purchase up to 21,239,822 shares of the Company’s common stock (the “New Warrant Shares”) to certain holders of the Company’s then existing Series C preferred investment options (the “Series C Preferred Investment Options”) issued to such investors in the Company’s November 2022 Private Placement. The New Warrants were issued pursuant to an Inducement Offer Letter Agreement, dated August 14, 2023, between the Company and the investors pursuant to which the Company agreed to reduce the original exercise price of the Series C Preferred Investment Options from \$2.356 to \$0.3201 in exchange for the investors’ agreeing to exercise their Series C Preferred Investment Options for cash on or before 10:00 P.M. on August 14, 2023. All of the Series C Preferred Investment Options were exercised before the deadline. The Company received net proceeds of approximately \$2.9 million from the exercise of the Series C Preferred Investment Options, after deducting commissions and expenses payable by the Company. The Company used the net proceeds for general corporate and working capital purposes. Each New Warrant is exercisable for \$0.3201 per share of common stock (subject to adjustment for stock splits, reorganizations and recapitalizations) immediately upon issuance until the fifth anniversary from the date of the issuance date. If at the time of exercise of the New Warrants there is no effective registration statement registering, or the prospectus contained therein is not available for the resale of the New Warrant Shares, the New Warrants may be exercised in whole or in part by means of a “cashless exercise.” On August 24, 2023, the Company filed a registration statement on Form S-3 (File No. 333-274189) to register the New Warrant Shares. The registration statement was declared effective by the SEC on September 1, 2023.

We intend to use our cash within the twelve months from September 30, 2023 and beyond for working capital and research and development.

We will seek to obtain additional capital through the sale of debt or equity financings or other arrangements to fund operations; however, there can be no assurance that we will be able to raise needed capital under acceptable terms, if at all. The sale of additional equity may dilute existing stockholders and newly issued shares may contain senior rights and preferences compared to currently outstanding shares of common stock. Issued debt securities may contain covenants and limit our ability to pay dividends or make other distributions to stockholders. If we are unable to obtain such additional financing, future operations would need to be scaled back or discontinued. Due to the uncertainty in our ability to raise capital, management believes that there is substantial doubt in our ability to continue as a going concern for the next twelve months from the issuance of these condensed consolidated financial statements.

See the footnotes to our unaudited financial statements for the quarter ended September 30, 2023 and 2022, included with this Quarterly Report on Form 10-Q.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

As a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and in Item 10(f)(1) of Regulation S-K, we are electing scaled disclosure reporting obligations and therefore are not required to provide the information requested by this item.

ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Disclosure controls and procedures are controls and other procedures designed to ensure that the information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and our principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable and not absolute assurance of achieving the desired control objectives, and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Based on our management's evaluation (with the participation of the individuals serving as our principal executive officer and principal financial officer) of our disclosure controls and procedures as required by Rules 13a-15 and 15d-15 under the Exchange Act, each of the individuals serving as our principal executive officer and principal financial officer has concluded that our disclosure controls and procedures were not effective at the reasonable assurance level as of September 30, 2023, the end of the period covered by this report. This is due to the material weaknesses described in our Form 10-K for the year ending December 31, 2022.

Material Weakness in Internal Control over Financial Reporting

We did not design policies and procedures at a sufficient level of precision to support the operating effectiveness of the controls to prevent and detect potential errors. We did not maintain adequate documentation to evidence the operating effectiveness of certain control activities, and did not maintain proper levels of supervision and review of complex accounting matters. We did not perform an initial assessment regarding classification of common stock purchase warrants. We did not maintain appropriate access to certain systems and did not maintain appropriate segregation of duties related to processes associated within those systems. We did not maintain adequate controls over inventory valuation. We did not assess our allowance for doubtful accounts.

These control deficiencies create a reasonable possibility that a material misstatement to the financial statements will not be prevented or detected on a timely basis, and there we concluded that the deficiencies represent material weaknesses in our internal control over financial reporting and our internal control over financial reporting was not effective as of September 30, 2023.

Remediation Plan

During the nine months ended September 30, 2023, we have continued to enhance our internal control over financial reporting in an effort to remediate the material weaknesses described above by testing the procedures and policy put in place with our new enterprise resource planning system, Acumatica. We are committed to ensuring that our internal control over financial reporting is designed and operating effectively.

Our remediation process includes, but not limited to:

- Investing in IT systems to enhance our operational and financial reporting and internal controls.
- Enhancing the organizational structure to support financial reporting processes and internal controls.

- Providing guidance, education and training to employees relating to our accounting policies and procedures.
- Further developing and documenting detailed policies and procedures regarding business processes for significant accounts, critical accounting policies and critical accounting estimates.
- Establishing effective general controls over IT systems to ensure that information produced can be relied upon by process level controls is relevant and reliable.

We expect to remediate these material weaknesses in the first half of 2024. However, we may discover additional material weaknesses that may require additional time and resources to remediate.

Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting that occurred during the quarter ended September 30, 2023 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, claims are made against us in the ordinary course of business, which could result in litigation. Claims and associated litigation are subject to inherent uncertainties and unfavorable outcomes could occur, such as monetary damages, fines, penalties or injunctions prohibiting us from selling one or more products or engaging in other activities. There were no reportable litigation events and there have been no material developments to litigation events previously disclosed in our SEC filings during the quarter ended September 30, 2023, except as described below.

On June 22, 2023, PCS Properties 2, LLC (the “Plaintiff”) filed a first amended complaint in the Superior Court, State of California, County of Orange, Central Justice Center (Case No. 30-2023-01326779-CU-UD-CJC) against the Company. In the complaint, the Plaintiff is suing the Company for Breach of the Company’s lease agreement, dated December 10, 2021 (the “Lease”), for the real property located at 8687 Research Drive, Suites 100, 150, 250, Irvine, CA 92618 (collectively, the “Premises”). In Plaintiff alleges that the Company owes the Plaintiff rent in the estimated sum of \$124,800 for the Premises, representing due rent through May 31, 2023 and is suing the following damages: (i) the unpaid rent, (ii) the rent for the balance of the term of the Lease (June 1, 2023 to May 31, 2027) in the minimum sum of \$2,374,278, less any sums that the Company proves could be reasonably avoided and (iii) all other amounts necessary to compensate Plaintiff for all the detriment proximately caused by the Company’s failure to perform its obligations under the Lease or which in the ordinary course of things would be likely to result therefrom, including but not limited to the cost of recovering possession of the Premises, expenses of reletting, including necessary renovation and alteration of the Premises, reasonable attorneys’ fees, and that portion of any leasing commission paid by Plaintiff in connection with the Lease applicable to the unexpired term of the Lease, in an amount to be proved at trial or earlier hearing in this matter (iv) prejudgment interest at the maximum legal rate (v) reasonable attorney’s fees and court fees. The Company is reviewing this matter with its real estate attorney and available legal options and strategies to resolve this matter with the Plaintiff.

ITEM 1A. RISK FACTORS.

Our inability to regain compliance with Nasdaq’ Minimum Bid Price Requirement would have a negative impact on our business.

As previously reported by the Company on a Form 8-K filed with the SEC on July 11, 2023, on July 7, 2023, the Company received written notice from The Nasdaq Stock Market LLC (“Nasdaq”) stating that the Company failed to maintain a minimum bid price of at least \$1.00 per share for the prior 30 consecutive trading day period from May 23, 2023 to July 6, 2023, based upon the closing bid price for its common stock as required by Nasdaq Listing Rule 5550(a)(2) (the “Bid Price Requirement”). Pursuant to Nasdaq Listing Rule 5810(c)(3)(A), the Company has 180 calendar days, or until January 3, 2024, to regain compliance with the Bid Price Requirement under Nasdaq Listing Rule 5550(a)(2). During the compliance period, the Company’s common stock will continue to be listed and traded on the Nasdaq Capital Market. To regain compliance, the closing bid price of the Company’s common stock must meet or exceed \$1.00 per share for a minimum of 10 consecutive trading days, unless extended by Nasdaq under Nasdaq Rule 5810(c)(3)(G), prior to January 3, 2024. In the event the Company does not regain compliance during the compliance period, the Company may be eligible for additional 180 calendar days to comply with Nasdaq Listing Rule 5550(a)(2), subject to the Company satisfying the continued listing requirement for the market value of publicly held shares and all other initial listing standards for the Nasdaq Capital Market with the exception of the bid price requirement, subject to Nasdaq’s approval.

There can be no assurance that we will regain compliance with the Bid Price Requirement by the January 3, 2024 deadline, or that we will be eligible for the second 180 day compliance period. Our inability to regain compliance with the Bid Price Requirement would materially impair our ability to raise capital. Moreover, if we were unable to regain compliance with the Bid Price Requirement, our common stock would likely then trade only in the over-the-counter market and the market liquidity of our common stock could be adversely affected and its market price could decrease. If our common stock were to trade on the over-the-counter market, selling our common stock could be more difficult because smaller quantities of shares would likely be bought and sold, transactions could be delayed, and we could face significant material adverse consequences, including: a limited availability of market quotations for our securities; reduced liquidity with respect to our securities; a determination that our shares are a “penny stock,” which will require brokers trading in our securities to adhere to more stringent rules, possibly resulting in a reduced level of trading activity in the secondary trading market for our securities; a reduced amount of news and analyst coverage; and a decreased ability to issue additional securities or obtain additional financing in the future. These factors could result in lower prices and larger spreads in the bid and ask prices for our common stock and would substantially impair our ability to raise additional funds and could result in a loss of institutional investor interest and fewer development opportunities for us.

Cybersecurity threats and attacks have become increasingly sophisticated and prevalent. These threats may result in unauthorized access to our systems and data, data breaches, disruption of our operations, financial losses, and damage to our brand and reputation.

Our business faces cybersecurity risks that could have a material adverse effect on our business operations, financial condition, and reputation. Key factors contributing to cybersecurity risks include, but are not limited to:

- **Constantly Evolving Threat Landscape:** The landscape of cybersecurity threats is constantly evolving, with new attack vectors, malware, and vulnerabilities emerging regularly. We may not be able to anticipate or mitigate all potential threats effectively.
- **Data Vulnerability:** We collect, store, and process sensitive customer and corporate data, making us a target for cybercriminals seeking to steal or exploit this information. A data breach could lead to financial and legal liabilities, including regulatory fines and customer trust erosion.

- **Third-Party Risks:** Our reliance on third-party vendors, suppliers and service providers exposes us to risks associated with their cybersecurity practices. A breach or security failure in a third-party system could impact our operations and data.
- **Phishing and Social Engineering:** Employees and individuals connected to our organization may be susceptible to phishing attacks or social engineering tactics that compromise security. Human error or manipulation can lead to breaches.
- **Regulatory Compliance:** We are subject to various data protection and privacy regulations, and non-compliance could result in legal and financial penalties. Adhering to these regulations requires ongoing efforts and resources.
- **Business Interruption:** A cyberattack or system breach may disrupt our operations, affecting our ability to serve customers, fulfill orders, and maintain revenue, resulting in financial losses.
- **Reputation Damage:** A publicized cybersecurity incident can significantly damage our brand and reputation, leading to customer churn and reduced market confidence.

Additionally, on July 26, 2023, the SEC adopted new cybersecurity disclosure rules for public companies that require disclosure regarding cybersecurity risk management (including the corporate board's role in overseeing cybersecurity risks, management's role and expertise in assessing and managing cybersecurity risks, and processes for assessing, identifying and managing cybersecurity risks) in annual reports. These new cybersecurity disclosure rules also require the disclosure of material cybersecurity incidents in a Form 8-K, generally within four days of determining an incident is material. We will be subject to such annual report disclosure requirements starting with our 2024 Form 10-K and we will be subject to such Form 8-K disclosure requirements starting June 15, 2024.

We may at times fail (or be perceived to have failed) in our efforts to comply with our privacy and data security obligations. Moreover, despite our efforts, our personnel or third parties on whom we rely may fail to comply with such obligations, which could negatively impact our business operations.

Any failure or perceived failure by us or third parties upon whom we rely to comply with obligations, relating to privacy and data security may result in significant consequences including but not limited to governmental investigations and enforcement actions (e.g., investigations, fines, penalties, audits, inspections, and similar), litigation, additional reporting requirements and/or oversight, bans on processing personal data, and orders to destroy or not use personal information.

Any of these events could have a material adverse effect on our reputation, business, or financial condition, including but not limited to loss of customers; interruptions or stoppages in our business operations; inability to process personal information; limited ability to develop or commercialize our products; expenditure of time and resources to defend any claim or inquiry; adverse publicity; or substantial changes to our business model or operations.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

On August 17, 2023, the Company issued in a private placement, common stock purchase warrants (the "New Warrants") to purchase up to 21,239,822 shares of the Company's common stock (the "New Warrant Shares") to certain holders of the Company's then existing Series C preferred investment options (the "Series C Preferred Investment Options") issued to such investors in the Company's November 2022 Private Placement. The New Warrants were issued pursuant to an Inducement Offer Letter Agreement, dated August 14, 2023, between the Company and the investors pursuant to which the Company agreed to reduce the original exercise price of the Series C Preferred Investment Options from \$2.356 to \$0.3201 in exchange for the investors' agreeing to exercise their Series C Preferred Investment Options for cash on or before 10:00 P.M. on August 14, 2023. All of the Series C Preferred Investment Options were exercised before the deadline.

Each New Warrant is exercisable for \$0.3201 per share of common stock (subject to adjustment for stock splits, reorganizations and recapitalizations) immediately upon issuance until the fifth anniversary from the date of the issuance date. If at the time of exercise of the New Warrants there is no effective registration statement registering, or the prospectus contained therein is not available for the resale of the New Warrant Shares, the New Warrants may be exercised in whole or in part by means of a "cashless exercise." On August 24, 2023, the Company filed a registration statement on Form S-3 (File No. 333-274189) to register the New Warrant Shares. The registration statement was declared effective by the SEC on September 1, 2023.

In consideration for H.C. Wainwright & Co., LLC (the “Placement Agent”) serving as the placement agent in connection with the August 2023 Transaction, the Company (i) issued the Placement Agent warrants (the “Placement Agent Warrants”) to purchase up to 637,195 shares of common stock (6% of the Series C Preferred Investment Options exercised) which have the same terms as the New Warrants except the Placement Agent Warrants for \$0.4001 per share (125% of the reduced exercise price of the Series C Preferred Investment Options); and (ii) agreed to issue the Placement Agent additional Placement Agent Warrant exercisable for that number of shares of common stock equal to 6.0% of the aggregate number of such shares of common stock underlying the New Warrants that have been exercised, which will have the same terms as the New Warrants except for an exercise price equal to \$0.4001 per share.

The Company received net proceeds of approximately \$2.9 million from the exercise of the Series C Preferred Investment Options, after deducting commissions and expenses payable by the Company. The Company used the net proceeds for general corporate and working capital purposes.

The Company issued the New Warrants and the Placement Agent Warrants pursuant to the exemption from the registration requirements of the Securities Act available under Section 4(a)(2).
